

MRS. SMITH RECOMMENDS CHAMBERLAIN'S TABLETS.

"I have had more or less stomach trouble for eight or ten years," writes Mrs. G. H. Smith, Brewerton, N. Y. "When suffering from attacks of indigestion and heaviness after eating, one or two of Chamberlain's Tablets have always relieved me. I have also found them a pleasant laxative." These tablets tone up the stomach and enable it to perform its functions naturally. If you are troubled with indigestion give them a trial, get well and stay well.

An Ordinance

AN ORDINANCE SUBMITTING TO THE VOTERS OF THE CITY OF PARIS, KENTUCKY, THE QUESTION OF A BOND ISSUE OF \$20,000.00 TO CONSTRUCT A SEWER EXTENDING FROM STONER AVENUE THROUGH THE EASTERN PORTION OF THE CITY TO OR NEAR TWENTIETH STREET AND SOUTH MAIN STREET.

CITY HALL, PARIS, KY.,
October 11, 1917.

Be it enacted by the Mayor and Board of Council of the City of Paris that an election be, and the same is hereby, called and ordered to be held on the 6th day of November, 1917, being the regular election day, and that at said election there be submitted to the qualified electors of the City of Paris, the following proposition:

"Are you in favor of issuing bonds in the sum of \$20,000.00 to be paid by levies from time to time to meet the bonds and interest thereon for purpose of constructing a sewer beginning at Stoner Avenue and running through the eastern part of the city to Twentieth Street and South Main Street?"

It is further ordered that said bonds, if authorized to be issued, shall mature at intervals to be hereafter determined, but none of said bonds are to mature at a later date than 20 years after the date of issue, and that there shall be raised annually by taxation for said purpose the sum of \$2,000.00, or such part thereof as may be necessary for an interest and sinking fund for the purpose of paying the interest on said bonds and redeeming said bonds at their maturity. Said bonds shall be issued providing for the payment of interest thereon at the rate of not more than 5% per annum.

At the election herein ordered the qualified voters of the City of Paris, Kentucky, shall have the right to vote, and a tax proposed to be levied for the purpose aforesaid shall be levied upon all property in the City of Paris subject to levy for general purposes.

The City Clerk shall give notice of the election above provided for by publishing a notice thereof in a news paper having a general circulation in the City of Paris, Kentucky, for at least two weeks prior to said election. Said notice shall specify the amount of indebtedness proposed to be incurred and the purpose of the same and the amount necessary to be raised annually by taxation, for an interest and sinking fund as above set out.

The City Clerk will furnish to the Clerk of Bourbon County a certified copy of this ordinance and he will likewise furnish to the Sheriff of Bourbon County a copy of this ordinance within ten days after its passage, and said Clerk and Sheriff are directed to do and to perform everything required by law in conducting said election and in the preservation of the returns and the canvassing and certification of the vote.

It is further directed that the Board of Education Commissioners of Bourbon County shall canvass the returns of said election and certify the results, and they will deliver a copy of the certification to the Board of Council of the City of Paris.

J. T. HINTON, Mayor.

Attest:
J. W. HAYDEN, Clerk.

NEW METHOD OF POSTAL DISTRIBUTION IS STARTED.

Following an order which was issued recently by Postmaster-General Burleson, and which was made possible by an act of Congress last March, the Paris postoffice, named as a central station for Bourbon county, has already begun distributing stamps and other postal supplies to the smaller stations of the county, necessary to meet the demands of an ever increasing public.

Instead of sending their requisitions to the Postoffice Department at Washington, the stations at Millersburg and other Bourbon county towns now order directly from the Paris office. This not only hastens the delivery of stamps, postal cards, envelopes, etc., which are often badly needed when the requisition is mailed, but promotes economy, inasmuch as the work of auditing the accounts of the thousands of stations in the country, formerly done by a force of bookkeepers and clerks at Washington, is now handled by the clerical forces of the several central stations.

The order has been put into effect to lessen the duties of the over-worked Washington office in sending out to stations additional supplies that will be needed in the heavy Christmas rush.

**GIRLS! GIRLS! TRY IT!
STOP DANDRUFF AND
BEAUTIFY YOUR HAIR**

**Hair Stops Falling Out and Gets
Thick, Wavy, Strong and
Beautiful.**

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it, surely get a small bottle of Knowlton's Danderine from any druggist or toilet counter for a few cents.

THE BLACK HILLS.

The Black Hills of the Dakotas are in many ways our most beautiful bit of scenery. Lacking the grandeur of isolated loveliness which gives them the charm of the place cut off and secluded—the charm that belongs to lonely islands and to the little towns of the northern wilderness, the Black Hills are a mountain islet in a sea of plain. They have the streams, the forests and the storms of the Rockies, and in their Bad Lands they have the fantastic, wind-cavern buttes and mesas of the Painted Desert and the Grand Canyon. Also, nowadays they have auto roads.

The Black Hills have always been something more than earthly mountains. The aura of savage superstition hangs round them still. There is something rather unearthly even to the most cynical civilized intellect in the shimmering beauty of the canyons, in the mad tangle of fantastically carved cliffs and gullies of the Bad Lands, in the sudden furious mountain storms. The Black Hills are the home of the Red Gods. One great butte the Indians pointed out as the platform whence their Great Spirit spoke to his people—the Sinai of the Dakotas.

The Indians were commanded to keep away from the inner valleys of the Black Hills, and they followed the mandate in all reverence. The hills were never used in tribal war; the deer and the bear that lived in their fastnesses were safe from spear and arrow. More than that, when the white men found gold in the Black Hills and swarmed over the sacred ground, the Indians fought and died by hundreds to prevent the desecration.

Nowadays the red men have out-

grown the old reverence to all appearances, and they watch the twin sixes spin their blue trail of gasoline vapor over the new roads without any visible emotion.

**ESTIMATE OF THE WORLD'S
WHEAT CROP.**

The world's wheat crop this year for the principal countries which have reported, including the United States, is 1,665,489,000 bushels, an increase of 1,665,489,000 bushels, an increase of 3.3 per cent. over 1916, according to reports from the International Institute of Agriculture at Rome, made public recently by the Department of Agriculture.

The world's barley crop is 464,289,000 bushels, an increase of 2.4 per cent; the rye crop, 89,950,000 bushels, an increase of 10.7 per cent; the oats crop, 1,995,504,000 bushels, an increase of 19.9 per cent; the corn crop, 3,273,996,000 bushels, an increase of 25.3 per cent.

Algeria, the latest country to report, shows wheat production of 29,715,000 bushels, an increase of 1.9 per cent. over last year. Her oats crop is 18,946,000 bushels, an increase of 44.2 per cent., and her barley crop, 33,208,000 bushels, a decrease of 7.7 per cent.

HARNESS THE STREAMS

Of the 60,700,000 horsepower of water power in the United States, all but 5,300,000 horsepower is running to waste. The water is at present locked up against utilization by the laws of governing the forest reserves, the general public domain and the navigable streams. Congressmen have not hesitated to advocate higher rates on mail matter of the second class, but have not found time to open up these water powers so that print paper can be made cheaper for the publishers. It has been estimated by Secretary of Agriculture Houston that there is enough timber going to waste in the forest reserves and on cut-over lands to supply wood pulp indefinitely, if the question of its manufacture by water power could be solved. Three bills now pending in Congress—the Shields bill, the Walsh bill and the Small bill—are designed to release the water power to private development in the three fields mentioned. Apparently, however, it is easier to pass billion dollar appropriations, issue bonds and impose direct taxes on "war profits" than to harness the waters to useful purpose.

**Rengo Belt
Reducing
Corsets**

Most Economical

It is the height of economy to wear Rengo Belt corsets—they last.

Most reducing corsets have their style lines only when they are new. Rengo Belt corsets retain their lines until they are worn out, and greatest comfort comes after the first wear. This is the reason why Rengo Belt corsets have gathered new admirers each year until they have become famous.

**Economical
Satisfying
Most Comfortable**

No woman asks more—some have found all this and more—mostly they are women who wear Rengo Belt corsets.

Models for every figure—some with "steelastic" webbing for greater freedom—all with double watch spring boning.
